

**I am going to summer camp at the Montshire Museum of Science.
There are many interesting things to do and see at camp.**

**I will find my camp group outside.
My grownups and I will check in with my camp counselors.**

**I will get a wood cookie nametag to wear.
I will put my backpack aside and join the other campers.**

We will play while we wait for everyone to arrive.

**We will have circle time to talk about our day.
It's okay if I don't feel like talking.**

**We will walk to our basecamp.
Basecamp is our special place to play, eat and leave our bags.**

**I will be in a small group with other campers.
I will try and see and do all kinds of things!**

Then I will eat snack.

This is the bathroom we will use at camp. We will have bathroom breaks during the day. If I need to go to the bathroom I can always ask a counselor

I will eat lunch.

In the afternoon we will eat lunch and then go swimming. Before I can go swimming I have to change into my swimming clothes.

I will change in a small tent or in the bathroom

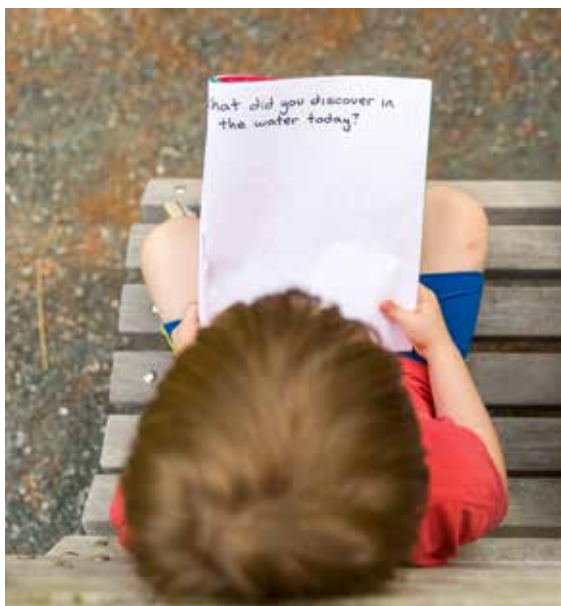

We will play in the water. We will play in different places each day and that is ok. If I don't feel like swimming I can sit.

When we are done swimming, we will change back into our dry clothes

**Next, each camper will get their own place for quiet time.
My place is called my "Magic Spot."
I can add to my journal while I'm in my Magic Spot.**

**Last we will have a closing circle time.
We will talk about what happened in our day
and what we will do tomorrow.**

**Then it is time to go home.
I'll come back to camp tomorrow!**
